## INTRODUCTION

The actual compiling of the tombstone inscriptions of Pike County, Alabama, into this arrangement started the last of September, 1970. The index was completed October 26, 1972. This record includes the inscriptions from every ~~white~~ cemetery locatable in the county. The possibility exists that some graveyards have been omitted, but this is due to the lack of knowledge of their locations. This compilation includes approximately 15,400 inscriptions from 126 cemeteries.

This particular project is an off-spring of work started back in the 1950's by individuals who realized the importance of tombstone inscriptions in genealogical and historical research. The Pike County Historical Society began to publish these earlier surveys in its "Papers of the Pike County Historical Society." Miscellaneous cemetery records had appeared in five issues of the quarterly publication when it became evident that a county-wide survey and a single publication was much more desirable.

Original plans called for the extensive use of all previous surveys obtainable in order to avoid duplication of efforts; however, two major problems were encountered, and plans were altered to meet the situation. Apparently some of the earlier surveys were made to satisfy the personal demands of those making them. They did not cover the details needed for this project. Some of the surveys published were made several years ago. Pleas were received to bring the surveys of these hallowed places up to date before publication. Thus, a resurvey was made on many cemeteries and this book reflects the results of the last survey. The earlier surveys were, however, compared for possible missing details.

Due to the tremendous amount of work that would have been involved, epitaphs are omitted unless they contain information of genealogical or historical value.

During the course of this project we discovered it is an impossibility to make a 100% perfect cemetery survey. Too many factors are involved. We trust that the information shown herein does contain a high degree of accuracy. Our aim was to make this record as complete and accurate as possible.

This entire project has been accomplished through the generous contribution of time and effort by many people to whom I wish again to say "Thank you."

Many supplied data from particular cemeteries and are credited in the list of cemeteries. Others contributed by giving directions necessary to locate a cemetery; their names go unmentioned, but their help is no less appreciated. Two people are deserving of particular note, for their service materially assisted in the overall success of the project. Neither desires to be singled out for particular recognition but both are deserving of it. Mrs. Henry W. Folmar of Goshen contributed heavily in records, and her personal influence contributed to the quality of the completed project. Mr. John P. Johnston of Brundidge supplied many records and was untiring in the diverse types of work involved in a county-wide survey.

It is hoped that this record will become a prime reference source on Pike County, Alabama, and will assist many researchers in the years to come.

#### GRANITE MARKER WEST SIDE

"This immediate area, roughly 80' x 105' with granite post at the four corners, is only a portion of the cemetery of the Philadelphia Presbyterian Church (1839-1917). A cemetery that contained mostly unmarked graves. The markers within this area are at the graves of some of the descendants of John McLure, of the Beaver Creek Presbyterian Church in Kershaw District, South Carolina, through his son, Richard Rankin McLure (1783-1858) and some family connections. The church building was to the north of the Cemetery."

Pugh, who served Alabama for 12 years or more in the Senate of the United States. The grave is situated in a cotton field about fifty yards from the Troy-Eufaula road. The Chinese custom of cultivating the ancestral grave is not quite followed in this instance for the cotton is not planted directly upon the grave, but is so close that the branches will lap across the mound if the stalks reach their growth. The inscription tells that Robert Pugh died August 5, 1831 at the age of 47 years. The place where he was buried was once the prosperous and populous Harrell Hobdy Community."

#### Brundidge News October 5, 1895

"An unmarked grave — Not many persons, perhaps, are aware of the fact that the ashes of Senator James L. Pugh's father rest in the bosom of Pike County. Such is true, nevertheless. Mr. Pugh, Senior was buried in a private cemetery on what is known as the Ed. Hobdy Place, on the Hobdy's Bridge road about ten miles from Brundidge. We are informed that the remains of an old headstone are yet standing but the spot is so overgrown with underbrush, grass and weeds that there is so little to indicate to the passer-by of the paternal ancestor of so distinguished a son of Alabama."
